The London property market, on your TV.

London Property is a television channel on Roku and Fire TV, Channel 352, showing London homes in cinematic video tours. Every tour is linked to two premium property platforms — londonflat.uk and londonrealestate.app — where the viewer opens the full listing and reaches the agency directly.

WHERE YOUR PROPERTIES APPEAR

01

London Property TV

Roku and Fire TV, Channel 352. Homes for sale and to rent, presented as full video tours.

02

londonflat.uk

Premium marketplace: Explore Listings, the London Living Services Hub, Agency Portal, About London.

03

londonrealestate.app

Second premium marketplace, same listing reach and the same Services Hub for your clients.

WHAT AN AGENCY GETS

- A cinematic video tour of each listing in the channel
- Your agency profile in the **Agencies** category — who you are, the areas you cover, how to reach you
- Your listing on both premium platforms, with a direct link back to your agency
- Placement in the category that fits the property: For Sale, To Rent, Legal & Finance, Build & Interiors, Home Trades, Moving & Security, About London
- Agency Portal access for your team
- The enquiry stays yours — viewers contact the agency, not a call centre

HOW IT WORKS

STEP 1

Send the listing: area, asking price, photographs and video — or ask us about tour production.

STEP 2

We produce the tour and format the listing for the TV channel and for both platforms.

STEP 3

It goes live on Channel 352 and on londonflat.uk and londonrealestate.app, in the right categories.

BUILT FOR AGENCIES, NOT FOR PORTALS

London Property is a B2B2C channel: the agency keeps its brand, its listing and its client. The channel gives the property a screen in the living room; the two platforms give it the page where the buyer or tenant can act. The London Living Services Hub sits alongside every listing — thirty-two service categories, from solicitors and surveyors to removals and interior design — so a move can be handled in one place.
